## SEE THINGS DIFFERENTLY

On Friday 9th October 2009, 60 venues in Leeds city centre will open late into the night, playing host to 90 events that celebrate the full range of creative activity in this fantastic city. We call this celebration 'Light Night'.

**“A city is more than the sum of its inhabitants. Bring people together and they create a surplus of enjoyment; bring buildings together and collectively they can give visual pleasure which none can give separately.”**  
- Gordon Cullen, Townscape.

When an artist is given free access to a place of worship, they can change it into a web of light. When a photographer is given free access to a bus or a spiral staircase, he can change it into a gallery. When an oral historian is given free access to hundreds of yoghurt pots and loads of string, she can revive the lost art of conversation. A gallery or a library can become a forest. A goods lift becomes an intimate film theatre. A hotel becomes a theatre. Statues all over the city speak. Sign language becomes dance, galleries travel, the private becomes public, the hidden becomes known, the periphery becomes the centre, imaginary and invisible cities are revealed, and all that is solid melts into air.

And when, on Light Night, this collective giving creates 90 events across 60 venues, the audience, YOU, are given free access to a whole city which, for one night at least (and hopefully forever after) you can see differently, you can change.

From five o'clock on Friday 9th October right through until late into the night, museums, universities and colleges, walls, windows, parks, basements, squares, brochures, bars, theatres, temple works and towers, walls, infirmaries, bridges, and bollards become host to film, opera, projection, drama, colouring in, dance, storytelling, music, ballet, marches, processions, travelling galleries, games, ghosts, grim trails, angels, lego® and monsters. And most importantly Leeds plays host to YOU, and to a fantastic FREE Friday night out which we very much hope you'll never forget.

Light Night is coordinated by the Arts and Regeneration Unit of Leeds City Council, with a multitude of lovely partners from across the city. We'd very much like to send our heartfelt thanks to you all, and hope that you really love the night. xx

## – Some Things You Need To Know

Information in the brochure is correct at time of going to print, but details may be subject to change so if there's an event you really want to see, please make sure you check details on the day at [www.lightnightleeds.co.uk](http://www.lightnightleeds.co.uk) and arrive early to avoid disappointment.

This brochure is available in large print, audio, Braille, and a range of community languages.

Call us for enquiries or to request a copy in a different format on **0113 2478234**.

We do use some odd, confined spaces, and some of them have limited access. If you have any special access requirements, please call us to check accessibility on **0113 2478234**.

Light Night covers the whole of the city and many of the events are outside. Wear sensible shoes and a warm coat, and bring a brolly.

It goes without saying that you might not want to come out on an October night if you're feeling flu-like symptoms. However, if you do, please adhere to the established flu containment measures, covering your nose and mouth when coughing or sneezing and using a tissue where possible; disposing of dirty tissues promptly and carefully (catch it, bin it, kill it); maintaining good basic hygiene. In particular, please stay away from events at Leeds General Infirmary.

Light Night is only one night a year, but all the people involved are working in our city year round. If you miss something, or see something that you like, find their website and find out what they do the rest of the time. Sign up to some forums like Leeds Visual Arts Forum and Cops and Robbers, and you will quickly find that, if you look hard enough, there's something great to see or do every night of the year in Leeds.

Every event is open to all, but we think some are particularly suited to children and young families. We have marked these events as follows:

All of our events are free, but because some of them are in small or confined spaces, booking may be essential. We have marked these events as follows:

Enter at your own risk! Please take care when moving through some of the older, darker buildings in the city.
